The Alaska Earthquake Information Center (AEIC) monitors earthquakes in Alaska and provides earthquake information to the citizens and public officials of Alaska. The Center is a cooperative program of the Geophysical Institute of the University of Alaska and the U.S. Geological Survey and is located at the Geophysical Institute in Fairbanks with the Alaska State Seismologist's Office.

Additional information may be obtained from: AEIC, Geophysical Institute, Fairbanks, AK, 99775-7320 Ph: (907) 474-7320 FAX: (907) 474-5618 WEB: http://www.aeic.alaska.edu ; OR USGS National Earthquake Information Center, Denver, CO. Ph: (303) 273-8500 FAX: (303) 273-8450

The Alaska Earthquake Information Center located a light earthquake that occurred on Wednesday, June 14th at 7:03 PM AKDT in the Kenai Peninsula region of Alaska. This earthquake had a preliminary magnitude of 4.7 and was located at a depth of about 19 miles (30 km). The magnitude and location may change slightly as additional data are received and processed. The event was felt strongly in Homer, and was also felt in Ninilchik. No reports of damage have been received as of this time.

Distance to nearby locations:

- 19 km (12 miles) SSE of Port Graham
- 21 km (13 miles) SSE of Nanwalek
- 21 km (13 miles) SSE of English Bay
- 28 km (17 miles) S of Seldovia
- 51 km (32 miles) SSW of Homer
- 65 km (41 miles) S of Anchor Point
- 96 km (60 miles) S of Ninilchik
- 117 km (73 miles) S of Clam Gulch

Preliminary earthquake parameters:

- Origin Time (UT): 06/15/2000 03:03:23
- Latitude: 59 N 11’
- Longitude: 151 W 44’
- Depth: 30 km
- Magnitude: ML 4.7

The location and magnitude for this earthquake may be updated as data from additional seismic stations are received. The Alaska Earthquake Information Center will continue to gather data and may issue additional releases as appropriate. With any moderate or large earthquake, aftershocks should be expected to occur.
